PROFESSIONAL SUMMARY

MCA graduate with hands-on Full Stack Development experience building web applications using React.js, Node.js, Express.js, and PostgreSQL. Skilled in developing RESTful APIs, authentication systems, and database-driven applications, with additional experience in Python, Flask, Data Science, and Machine Learning. Seeking an entry-level Software Developer or Full Stack Developer role.

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript

Frontend: React.js, HTML, CSS

Backend: Node.js, Express.js, Flask, PHP, Django REST Framework

Databases: PostgreSQL, MySQL, MongoDB, SQLite

Data Science & Machine Learning: Pandas, NumPy, Scikit-learn, Matplotlib, Jupyter Notebook

Data Visualization: Tableau, Power BI, Advanced Excel

Tools & Concepts: Git, GitHub, REST APIs, JWT Authentication, XAMPP

EXPERIENCE

Full Stack Developer Intern — Web Digital Mantra IT Services | May 2026 – July 2026

- Developed responsive web applications using React.js for the frontend and Node.js with Express.js for the backend.
- Built and integrated RESTful APIs to enable communication between frontend and backend services.
- Integrated PostgreSQL to store and manage user data and application records.
- Implemented JWT-based authentication and role-based access control for secure application access.
- Debugged and tested application features to improve functionality and reliability.

Data Science Intern — Skyllx Technologies Pvt Ltd | January 2026 – May 2026

- Completed a Data Science internship, applying data science concepts and Python-based tools in practical work.

PROJECTS

Web Digital Job Portal |

Technologies: React.js, Node.js, PostgreSQL

- Built a full-stack job portal enabling recruiters to post job openings and candidates to search and apply for positions.
- Developed RESTful APIs and role-based dashboards to streamline recruiter and candidate workflows.

Cloud Cost Optimization and Resource Prediction Dashboard |

Technologies: Python, Flask, SQLite

- Developed a Flask-based dashboard to monitor cloud resources and analyze associated costs.
- Implemented Machine Learning models to predict CPU, memory, storage, and cost usage.

Tourism Management System |

Technologies: PHP, MySQL

- Designed and developed a web application to automate tourism operations, including travel bookings and accommodations.
- Streamlined tour planning and customer service through a centralized, database-driven system.

Detecting Malicious Facebook Applications |

Technologies: Java, MySQL

- Built a Java-based system to identify malicious Facebook applications that pose privacy and data-misuse risks.
- Analyzed application permissions to flag suspicious data-access behavior and improve user security.

EDUCATION

Master of Computer Applications (MCA) — Surana College Autonomous, Bengaluru | 2024 – 2026

CGPA: 8.5

Bachelor of Computer Applications (BCA) — Government First Grade College, Bengaluru | 2020 – 2023

CGPA: 8.75

CERTIFICATIONS & VIRTUAL INTERNSHIPS

- AWS Data Engineering Virtual Internship
- AICTE Android Developer Virtual Internship
- AICTE AI-ML Virtual Internship
